

Arithmetic Table 2023

by Oleksandr Babenko

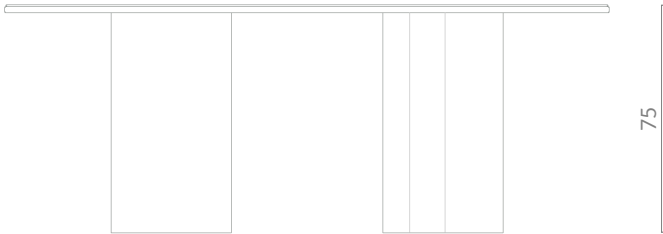

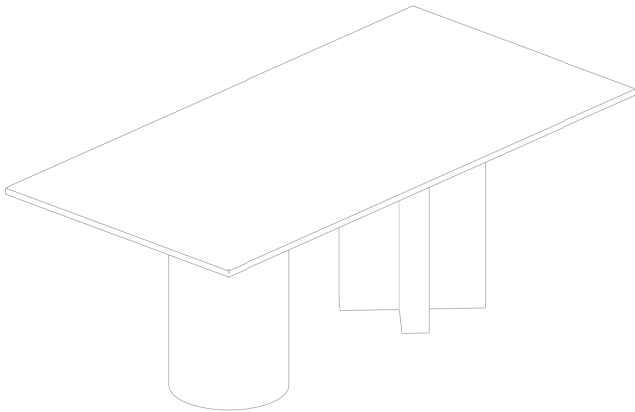

Description

The Arithmetic is the 3rd design masterpiece by Oleksandr Babenko. The story of creating the Arithmetic table begins with desire to create an object that would embody both elegance and power. It was inspiration by the harmony of opposites and decision to unite them. The result is a dining table that harmoniously combines forms and materials. The tabletop made of minerals stoneware or glass adds sophistication and modernity highlighting the natural origin of the materials and their organic influence giving the table a special charm. The legs and the base for the tabletop can be veneered or enameled, complementing the table's appearance with the chosen style. Arithmetic is a work of art capable of inspiring and astonishing with its design and bold solutions. This table will become a central accent in your interior adding style and uniqueness to it.

Important Information

We can produce our products in custom sizes. Contact us for a consultation.

Please note that surfaces made of natural veneer/wood may vary slightly in texture and shade even when using the same finish. This is due to the uniqueness of each piece of wood, batch, and the region of its origin. We recommend purchasing items with the same veneer/wood finish as part of a single order for maximum consistency in the chosen finish.
