

Laguna Table 2023

by Oleksandr Babenko

Description

Designed by Oleksandr Babenko the Laguna dining table is the 4th exquisite piece that combines strength and refinement.

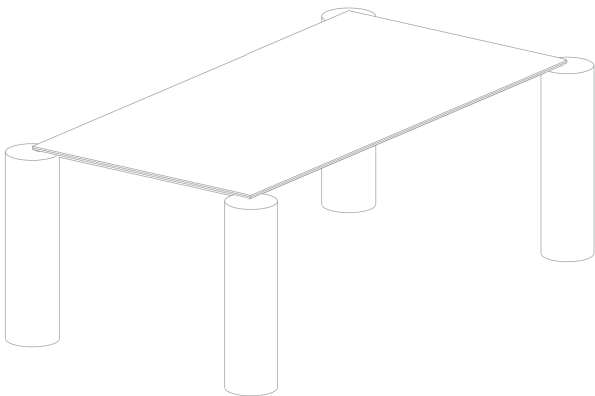

Creating the Laguna dining table was a true creative process where every detail matters. The choice of materials and their combination, the shape of the legs and tabletop – all of this was carefully thought out to create an elegant and unique image. Each Laguna table is a work of art capable of accentuating the interior's individuality and adding sophistication to it becoming a central piece.

The elevated and elegant tabletop can be made of natural minerals stoneware, glass or veneer. The substantial round legs made from veneered or enameled solid wood add a sense of strength to the design.

Laguna is a testament that strength and refinement can harmoniously coexist within a single object.

Important Information

We can produce our products in custom sizes. Contact us for a consultation.

Please note that surfaces made of natural veneer/wood may vary slightly in texture and shade even when using the same finish. This is due to the uniqueness of each piece of wood, batch, and the region of its origin.

We recommend purchasing items with the same veneer/wood finish as part of a single order for maximum consistency in the chosen finish.
