

Neutron Low Coffee Table 2023

by Oleksandr Babenko

Description

6th in collection is the Neutron Low coffee table. Was created by designer Oleksandr Babenko.

The idea of creating Neutron was born from Alexander Babenko's desire to design a stylish piece of furniture that not only serves a practical purpose but also inspires with its design.

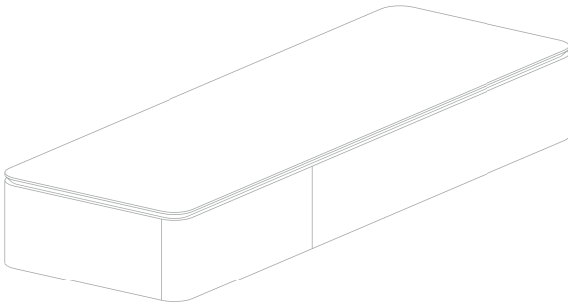

Its name reflects its essence - an object that gathers all the elements of the interior around it, like a neutron in an atom.

Elegance in every detail: the tabletop can be chosen from natural minerals stone, glass or veneer. The body of the table also emphasizes individuality - it can be veneered or enameled, harmoniously blending with other interior elements. Its rounded corners give it softness and harmony as well as safety in usage. Coffee table with drawers, so it's not just a stylish but also a functional model.

The Neutron coffee table possesses a unique character and refinement.

- Nero (S06NR)			
- Venato (S07VN)			
- Roccia (S08RC)			

Important Information

We can produce our products in custom sizes. Contact us for a consultation.

Please note that surfaces made of natural veneer/wood may vary slightly in texture and shade even when using the same finish. This is due to the uniqueness of each piece of wood, batch, and the region of its origin. We recommend purchasing items with the same veneer/wood finish as part of a single order for maximum consistency in the chosen finish.
