

# Ring Sofa 2025

by Oleksandr Babenko

## Description

Sharp lines, flawless geometry, and expressive accents — Ring continues the tradition of Oleksandr Babenko's collection, merging architectural precision with artistic vision. Number 15.

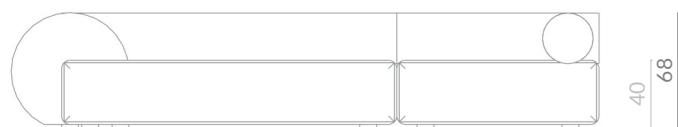

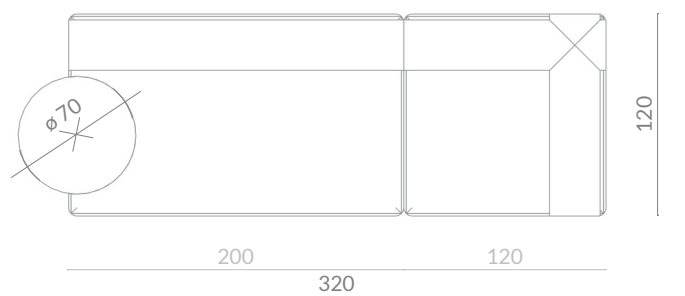

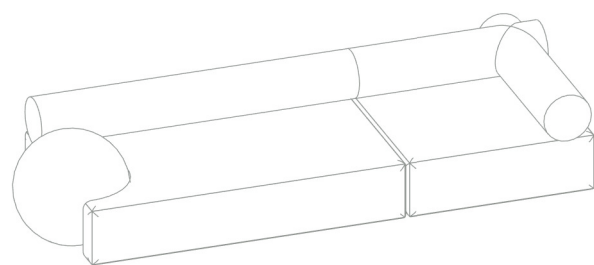

When designing Ring, Oleksandr envisioned modern spaces — open, free, and full of meaning. The key idea was contrast: the sofa's clean lines and sharp form are combined with a large sphere that adds dynamism and completeness to the composition.

This sofa captures attention with its unique module — a large spherical element that makes the composition complete and harmonious. For those who value functionality, there is an alternative version with a tabletop. The Ring sofa is the result of a search for the perfect balance between aesthetics and comfort.

It's designed for space where design becomes the essence.
