

Echo Series

Echo Octagonal Bedside Table 2025

by Oleksandr Babenko

Description

The Echo furniture series by Oleksandr Babenko, models No. 24 through No. 28. This series was born from the designer's desire to rethink the traditional approach to furniture design. Echo pieces act as architectural reflections within the space, enhancing the atmosphere of comfort and refined aesthetics.

The collection's philosophy is built on a contrast of materials: the soft tactile quality of the textile-upholstered bodies harmonizes with the cool texture of the brushed metal tabletops.

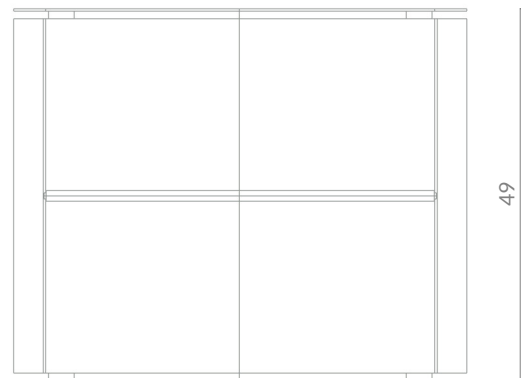

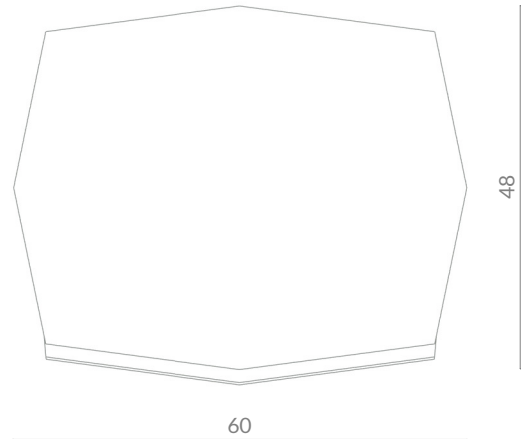

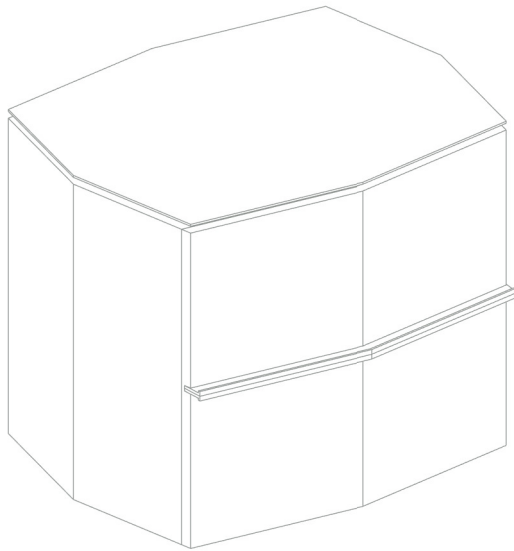

The models are available in a variety of sizes and formats, including bedside tables, coffee tables, chests of drawers and an elegant bench with integrated storage.

The body finish is offered in a wide palette of textile options, emphasizing the individuality of each piece.

Echo represents a delicate balance of functionality and design, becoming a focal point in modern interiors.

Important Information

Please note that:

1. We can produce our products in custom sizes. Contact us for a consultation.
2. Surfaces made of natural veneer/wood may vary slightly in texture and shade even when using the same finish. This is due to the uniqueness of each piece of wood, batch, and the region of its origin. We recommend purchasing items with the same veneer/wood finish as part of a single order for maximum consistency in the chosen finish.
3. Size discrepancies of soft furniture can reach up to 1-2 cm due to the natural properties of the filler and fabric.
