

Elemental Coffee Table 2025

by Oleksandr Babenko

Description

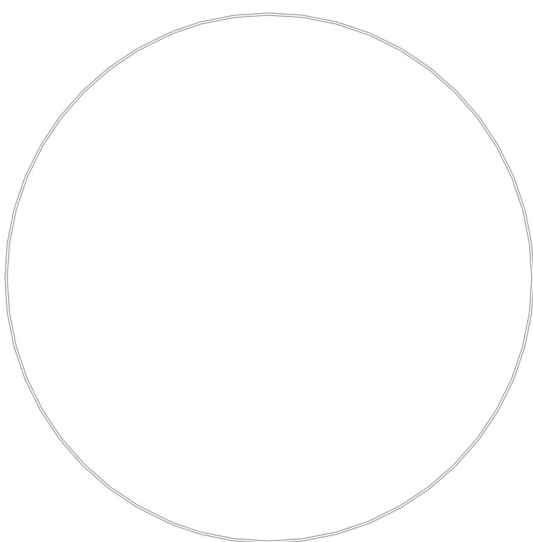

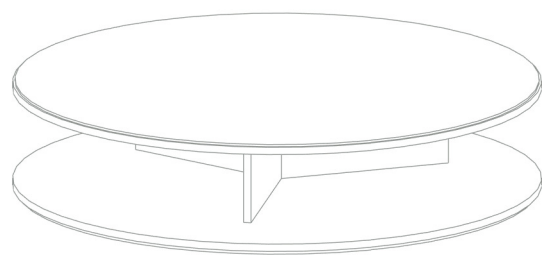

Elemental coffee tables by Oleksandr Babenko, design No. 29.

The designer envisioned Elemental as a continuation of his philosophy of pure architectural form. He had aimed to create tables that resemble small architectural structures — simple, monolithic, yet guided by an inner design logic. Elemental embodies the balance between solidity and lightness. Straight intersecting supports form a stable foundation for an elegant tabletop, available in glass, mineral stoneware or veneer. The base is finished in either lacquer or veneer, emphasizing the individuality of each piece. Two height options allow for the creation of multi-level compositions.

The Elemental tables become key elements of the interior, seamlessly combining the aesthetics of architectural forms with practical function.
