

Brillo Console 2025

by Oleksandr Babenko

Description

Brillo console by Oleksandr Babenko, design No. 41.

Brillo is a console where functionality meets expressive materials.

Alexander Babenko designed it as a convenient storage solution with an emphasis on clean lines and tactile finishes.

The veneered body gives the piece warmth and a natural feel, while the brushed metal front adds a contemporary touch and practical durability.

The interior compartment is hidden behind a drop-down facade, offering a convenient place for items that should be within reach but out of sight.

The console is available in both wall-mounted and floor-standing versions.

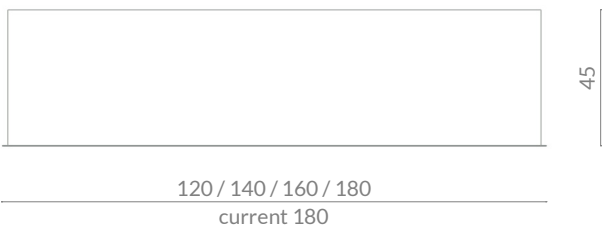

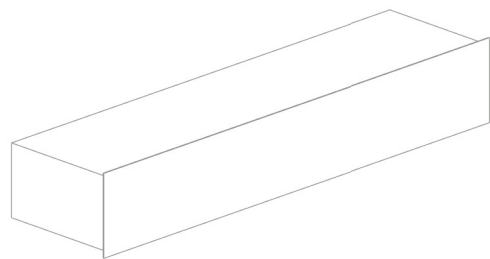

The wall-mounted version is lightweight and minimalist, while the floor-standing version is stable and sculptural, standing firmly on heavy, rounded supports.

Various sizes allow the console to fit seamlessly into different spaces.

Brillo becomes a striking element of the interior, serving not only as a functional object but also as a bold design statement.

Please note that:

1. We can produce our products in custom sizes. Contact us for a consultation.

2. Surfaces made of natural veneer/wood may vary slightly in texture and shade even when using the same finish. This is due to the uniqueness of each piece of wood, batch, and the region of its origin. We recommend purchasing items with the same veneer/wood finish as part of a single order for maximum consistency in the chosen finish.

3. Size discrepancies of soft furniture can reach up to 1-2 cm due to the natural properties of the filler and fabric.

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
